

2026 GLOBAL MEMBERSHIP PRICING

Beginning in April 2026, TIGER 21 will implement an updated pricing policy with the objective to deliver an exceptional Member experience while ensuring pricing consistency across our global Membership and the flexibility to keep pace with changes in the broader economic environment.

The pricing policy includes an annual dues adjustment aligned with a Developed Economies Consumer Price Index (CPI). The new pricing will be implemented for Membership renewals starting April 1, 2026 onward. Members will start seeing the updated pricing in renewal invitations starting February 15, 2026.

No increase to the initiation fee is planned for 2026. Although the fee is reviewed periodically, any adjustments are made at the discretion of management and the Board and may occur independently of annual dues updates.

Based on the current CPI, the initial dues adjustment starting April 1, 2026 will be as follows:
